

Graphique Media Solutions

Environmental Policy Statement

Graphique Media Solutions understand that although their individual global environmental impact is low, they have a social and moral responsibility to incorporate environmental sustainability within the company ethos.

- Comply with all environmental legislation and industry best practise
- Commit to the development and use of equipment, materials and substances used for our products which have minimal environmental impact
- Minimise energy, water and raw material consumption
- Promote and enquire about the use of renewable energy sources
- Apply the prevent, reduce, reuse and recycle waste hierarchy into our business operations
- Actively source our raw materials from local suppliers
- Promote environmental best practise to our suppliers and customers
- Review our environmental performance and policy on a regular basis

Our policy is specifically communicated to all of our staff and suppliers and is made available to customers and the public upon request.
